Make Your Skin Glow

Erase your skin's past with ONE session of Micro Needling for face and neck at Astoria Laser Clinic and Med Spa. The treatment includes micro needling with product infusion. Micro needling technology uses multiple needles that vertically pierce the skin with an automatic vibrating function. When moved across the skin, it stimulates natural collagen reproduction, while allowing fine channels to be created in the skin and is more effective than most microdermabrasion and chemical peels. This treatment is used to lessen the appearance of ageing skin, hyperpigmentation, enlarged pores, stretch marks, acne or burn scars, and much more.
