As you note clues, feel free to use the small well-crafted journal. This journal will also raise your status on the Metro, an outdoor café, or really anywhere you sit and jot down your innermost complex thoughts. Of course, you could just use it for your grocery lists or tick-tac-toe (no one will be the wiser).

If the lights go out on your adventure, let the **Little Tactical Flashlight** light up your area.

If you are hungry or in need of a place to decompress and reminisce about your adventure, enjoy some delicious food and beverages at **Mad Fox Brew Pub** with a gift card of \$150.

When you are out and about and just need to relax, a **Matador Portable Waterproof Blanket** will be a perfect cover to lay on the ground. When folded, it literally fits into the palm of your hand and even has tiny stakes.

Duct Tape and Cable Ties clearly need no explanation...

As for the beer, at least one time in your life you should do something that requires you to say, "**Hold my beer.**"
